

## **Using Infra-Red Heater**

#### Positioning:

- These heaters are for INDOOR USE ONLY.
- Do not expose the heater or power cables to rain or wet conditions. Any water entering the heater will increase the risk of electric shock.
- DO NOT use this heater in a bathroom, shower room or any other wet
- NEVER locate the heater near combustible materials such as curtains, furniture, etc. Allow at least 1 metre clearance.
- DO NOT locate the heater close to an adjacent wall or low ceiling. Allow at least 1 metre clearance. Avoid placing the heater directly below power sockets.
- Take care to ensure that the wire guard cannot be covered.
- DO NOT operate the heater in an explosive environment such as in the presence of flammable liquids, gases or dust such as in a spray booth.
- NEVER stand the heater on a moveable vehicle where it may tip over.
- Do not allow the halogen tubes to become covered in dust which could become a fire hazard. If used in a dusty workplace, it should be cleaned using a compressed air line (ALWAYS wear a dust mask if performing this operation).
- 10. Never touch the halogen tubes for at least 15 minutes after switching off.
- 11. DO NOT use the heater with a programmable timer used to switch it on automatically.
- 12. Use only in an upright position.
- 13. DO NOT leave the heater unattended.
- 14. If children are present ALWAYS use with a fireguard.
- 15. Store the heater out of reach of children and do not allow persons unfamiliar with these instructions to operate it.
